**csv\_object\_reader**

---

## 1.1 Homepage

Visit the home of *csv\_object\_reader* on the web: [https://github.com/fireyone29/csv\\_object\\_reader](https://github.com/fireyone29/csv_object_reader)

## 1.2 Summary

A simple module which mimics the *reader* classes from python's *csv* module but returns an object whose attributes are the members of the header instead of a list or dict.

The *ObjectReader* also provides a way to make fields required to be present and required to be not empty.

---

## Installation

---

At the command line:

```
$ easy_install csv_object_reader
```

Or, if you have virtualenvwrapper installed:

```
$ mkvirtualenv csv_object_reader  
$ pip install csv_object_reader
```

---

**Usage**

---

To use `csv_object_reader` in a project:

```
import csv_object_reader
```

---

**History**

---

**4.1 Version 0.0 (2015-02-08)**

- Initial revision. Basic interface and functionality.

---
